## Concept & Hotel De Suede

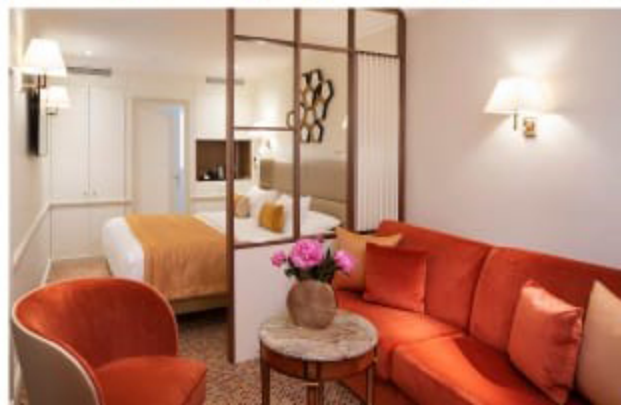

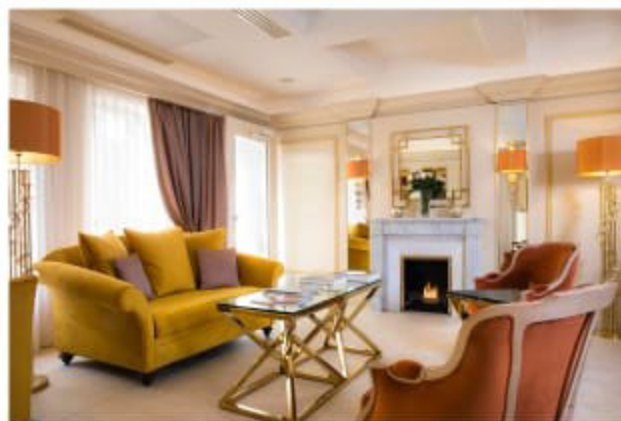

Hotel de Suede is located in the Latin quarter of Paris, well-known for being a very elegant area. Intellectuals, famous musicians and artists used to live in that Saint-Germain area in the 50' and 60'.

The hotel has the privilege of having a court yard where the customers can have breakfast or sharing an "after".

Christine and Nicola Borella with their team BORELLA ART DESIGN choose this concept to enhance the total renovation of this charming Parisian hotel of 45 bed rooms.

The idea is that as soon as you walk in the hotel, you are embraced by the concept. A classic French style combining chic and traditional. Moulding panel reflects the authentic Parisian feeling.

The study of the concept started by the lobby floor where the creation is a mixed of the welcome desk, sitting and breakfast areas. All these functions influence on the new coming way of sharing in a hotel.

Clients can meet, work or exchange as to embrace some moments.

In the rooms the same concept is kept as to have a continuation.

Double and family rooms keep the same style; gold and red colour are used on fabric to enhance the rooms, to create an intimate feeling to rest.

Antic desk combining with to-day bed head designed by the studio create this feeling of tradition and modernity.

In the family room, the wooden partition has been designed by the agency as to reflect an elegant and warm atmosphere, enhancing the Parisian way of life.

The chairs are designed by the agency as to personalized the rooms.

As you can see it is a bespoke project.
